About Us

Tradenet Projects and Distribution (Pty) Ltd is a Turnkey Project and support firm primarily vectored in the distribution of volumetric electric and power cables.

We are a South African registered entity with a threefold function and work area:

Tradenet: Coordinated and partnered supply for products and services through our global networks

Projects: Project support through provision of products and services within our coordinated and partnered global networks

Distribution: Centralized, decentralized and proxy distribution of specific-consumer good

Projects Support and Distribution

Project Support
Project support
and incorporation

Turn Key Projects
Beverage plant,
machinery and
components

Distribution
Distribution of
specified consumer
goods in the beverage
sector

Modus Operandi

Team

We provide commodity and service through our selective teams and group companies

Network

Through and with our global partners and Trade alliances; we present collective, connected, tailored, vectored works.

Facilitating an exchange of expertise, knowledge and commodities globally

Mantra

Connectivity Trade and Project Implementation

Mission Statement

To source, process, provide, innovate.

Our mission brings a balance of sustainability and development by providing and distributing commodity in the distribution and generation of power and IT support to which the projects are managed.

Vision Statement

We aim to be the switch to which the flow of projects begins, sustains and develops. To make Vision active and possible.

Be it Commercial, Philanthropic, legendary – **We turn ideas to reality through the mainstream services and products we supply.**

In **IT** we supply the **cables** to power the mainframes.

In **Industrial works**, we supply **electromechanics** that power the tools we live in
In Lighting, we supply the cables and support to power the activities in generating electricity

Core Values

In Simplicity, Amaze.

Development, Attainment and Trust.

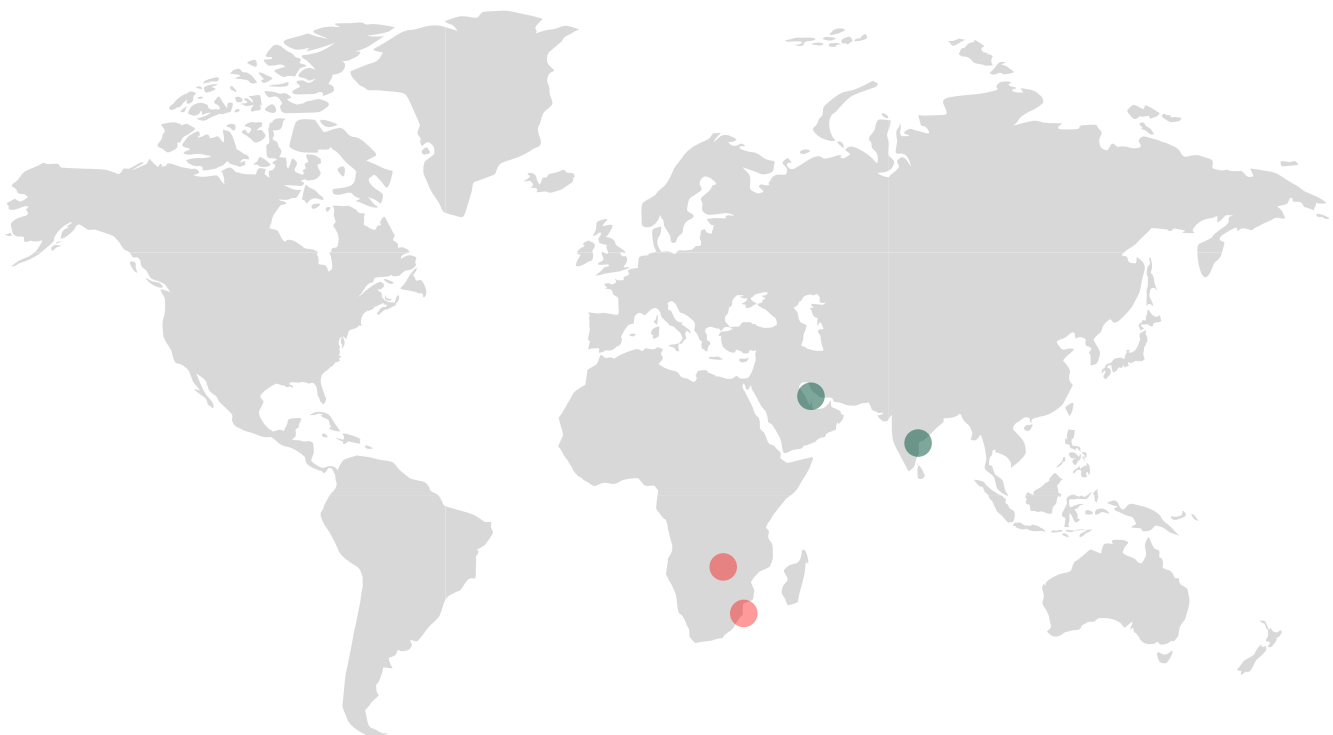

Strategy And Policy

Providing special tailored products and services Find unique and creative means to meet clients needs Team work by implementations of progressive business disciplines Regular and timely reporting Research and development for added support and clients growth To communicate and mitigate risks

Regions

Collective work and alliance has been established in SADC, Italy, India; With the diverse dialectical and cultural backgrounds from Mozambique, Angola, the Democratic Republic of Congo, and the UAE markets operated in
